# Foreword

---

The following listed stock is all first class of the grade named. In case of your ordering any item in a grade we are sold out on, we reserve the right to give you the next higher or lower grade. In case we are entirely sold out on any item you may order, we would be glad to select some other variety of equal merit, color and season. Our judgment of what is best is at your command.

Let us book your order and we will hold until you come for it, or until time to ship.

Orders desired shipped, will be packed F. O. B.—except evergreens, which must be boxed, and will be boxed at a reasonable cost.

We have a fine large supply in all the standard varieties in Evergreens. You should see them to appreciate them.

We have been in the business for sixty years. Our customers are our best advertisers. We solicit your business.

NOTE—If in need of stock in larger quantities than are named in list, write for prices and we will make you special quotations.

NOTE—We allow 5 at 10 rate and 50 at 100 rate.

NOTE—In growing large quantities of stock there is sometimes stock in off grade, either smaller or larger than herein quoted. If interested in such grades, ask for prices.

OUR GUARANTEE—All goods are guaranteed to reach you in good condition; mistakes, if made, will be promptly rectified. Accept shipment, examine and count on receipt and notify us at once should there be any errors, and the carrier as well, if there is any damaged stock. This guarantee is not good unless above requirements are complied with. **We do not guarantee continued growth.** Remember, a tree, shrub, or plant is a living organism, as much as a cow, horse, or man. It breathes, drinks and feeds, and is liable to attacks.

TERMS—Cash, or if sent by express, C. O. D. on delivery.

HOW TO SEND MONEY—Remittances may be made by postal or express Money Order, Draft, or Check. If cash is sent use registered letter. Postage stamps accepted only in payment of orders less than one dollar (1c and 2c stamps preferred).

FOR PLANTS ORDERED BY PARCEL POST—On Strawberry, add 12c per 10; Raspberry, add 15c per 25; Perennial and Rock Plants, add 10c per 12.

# Complete Landscaping Service

---

Landscaping should have a two-fold object—beauty and utility. The plan must provide for pleasing views, beautiful foliage, bright and gay flowers—the whole making a harmonious picture.

It must also provide for convenient walks and drives, ease of handling, and not the least important, economy of space.

No matter how attractive your house may be, it can be made moreso to passersby, and to yourself, by a well-planned program of planting. In other words—

## **“IT’S NOT A HOME ’TILL IT’S PLANTED”**

Knowing that a great many are at a loss to know “What to plant and where to plant it,” we offer our Landscape Service to all our customers.

If interested, call or write us, we will call and see you, take measurements of your lot and buildings, and draw you a plan for planting it.

If you accept our plan, we will sell you the stock and you may plant it yourself, or we will do the planting for you.

Please remember that April, May and October, are busy months with us, and the earlier you call us, the more time and study we can give to your planting sketch.

---

## **SUGGESTIONS**

The Front Lawn should be open and inviting. For the utmost in attractiveness, plan to have an open stretch of well-kept lawn framed by plantings of evergreens and shrubbery in pleasing borders and curves along the lot line. Hardy flowers can also add color and beauty.

The Rear Lawn can be made into an “out-door living room” where you will want to spend many restful hours, if it is provided with proper shade and the correct varieties of flowers and shrubs.

Hardy Perennials and Rock Plants will be a source of joy and satisfaction all through Spring and Summer, as you admire the many changes in shapes, hues and colors, and the gorgeous creations of nature. Fruit producing trees, grapes, and berries can also be included in your planting plans without detracting in the least from the beauty and harmony of the scheme as a whole.

## FRUIT TREES

### WHY NOT BUY MORE FRUIT TREES?

How many dollars a year do you spend for fruit—either fresh or in cans?

Did you ever stop to think that one-tenth that sum invested in a few trees, would give you many times the amount of fruit you buy—and keep on giving it to you, year after year?

Please note that we quote on first grade stock in fruit trees.

If you have in mind small stock such as mail order catalogue quotes, write us giving list of wants and we will quote price for such stock.

### APPLES

11-16 inch and up, 75c each; per 10 \$6.50.

EARLY VARIETIES—Early Transparent, Red Astrachan.

SUMMER & FALL—Duchess of Oldenburg, Maiden Blush, Wealthy, and Hyslop Crab.

- GOOSEBERRY—Poorman, Downing, Pearl, .....2 year, 25c each, \$2.50 doz.
- STRAWBERRY—Senator Dunlap, Gibson, Premier, Aroma, Mastodon Everbearing—Prices on application.
- NOTE—Strawberry and Raspberry furnished in the Spring only. Write for Prices.

## SHADE TREES

### MAKING THE HOME BEAUTIFUL

More attractive homes! Homes larger, better built, more convenient, more attractive. Not only for more heat, more light, more comfort, but also more beauty.

When God made this country it was a place of trees, shrubs and flowers. Today men are beginning to realize that God's way is the best and everywhere men and women are striving to retain as they can. Parks and reserves for much of that former beauty as everybody, playgrounds for children, green lawns and shrubs and trees and flowers. Civic centers for making better citizens.

Your own home, too, may be likewise a center of beauty at how small a cost many people do not realize. A little loving care is the largest item. Making the desert blossom like the rose is figurative, but making the home grounds more attractive is one step in the process.

NOTE—Shade trees are generally given in caliper instead of height, then the buyer has a better idea of the size of the tree in caliper or diameter at base near the ground. Younger or lighter trees you will find given in height only.

## ORNAMENTAL SHRUBS

If you want stock cheap (Mail Order grade) we can furnish it, but will take two to three years longer to get the effect of first class, stooled out plants.

A good collection of Shrubs is not only an unfailing source of pleasure but is absolutely indispensable to the well arranged lawn. Nature plants shrubs with lavish hand along the borders of the woodland. The effect is always restful and beautiful. The attractive home is the one neatly planted with Trees, Shrubs and flowers. Shrubs planted along the borders, massed into the corners, against the porches and sharp angles of the house will greatly enhance the artistic value of any home. Shrub plantings are the harmonizing feature which link the trees, buildings and lawn into one harmonious whole and give that finishing touch of hominess so greatly desired.

Rose of Sharon, red, white, pink, purple, 1½ to 2 feet 35c; 2 to 3 feet.....	.50
Burning Blush, 3 to 4 feet, 65c; 4 to 5 feet	.75

Wegelia, Candida, 2 to 3 feet 40c; 3 to 4 feet....	.50
Wegelia, Floribunda-Red, 2-3 feet 50c; 3-4 ft.	.60

## HARDY EVERGREENS

The Evergreen has vouchsafed man in order to give him to understand more fully the Eternal promise of life everlasting. Evergreens typify permanency, defy time and the elements. In the bleak Northern winters the Evergreen stands out in the

landscape, fresh green, and full of cheer. An Evergreen must not have its roots exposed to the sun or wind not even a minute. For this reason large sized trees are dug with a ball of dirt left with the roots and a burlap cloth sewed tightly about it. On smaller sizes of trees we are able to mud the roots heavily and cover with wet moss and cloth.

Remember that time is an important item in the production of Evergreens, viz., five to ten years. The intrinsic value of Evergreens, as grown and sold by the nursery, is reckoned on the time and labor to produce it, and its life and value as received by the planter. Some varieties can be grown quicker and hence sold cheaper and so that you may be able to judge for yourself between size and varieties and get nice small sized evergreens. Drive to the nursery and select them. Have them fresh dug, and we will give full instructions as to planting and care.

Plant Evergreens for all year round beauty. Use them for foundation plantings, windbreaks, or in the open as specimen ornamentals.

## HEDGE PLANTS

---

A small amount of money invested in beautiful hedges will add more value to a country or city home property dollar for dollar, than any other similar investment. A hedge planted about the border of a lawn will transform a heretofore bare looking spot into a place of beauty, and you can keep it low or let it go high, as a screen. City lots may be divided by Hedging with fine effect.

Amoor River Privet, 12-18 in. 2 yr. 8c; per 100 7.00

Amoor River Privet, 18-24 in. 2yr. 10c; per 100	8.00
Amoor River Privet, 3 to 3½ ft., 3 year, 15c; per 100	12.00
Barberry, Thunbergii, 2 yr. 12-15 in. 18c; 100	15.00
Barberry, Thunbergii, 3 yr. 15-20 in. 20c; 100	18.00
Barberry, Thunbergii, 4 yr. 18-24 in. 25c; 100	20.00
Red Leaf Barberry, 2 yr. 12-15 in., 30c; 100	25.00
Red Leaf Barberry, 4 yr. 18-24 in., 50c; 100	40.00
Red Leaf Barberry, 4 yr. 2-3 feet, 60c; 100	50.00

**SCOTCH BROOM**—A new shrub for this section. Dark green bark—a superb shrub for color effect. 2 to 3 feet, \$1.25; 3 to 4 feet, \$1.75; 4 to 5 ft., \$2.50.

**WATER LILIES**—60 each.

**MAHONIA Aquifolio** (Holly leaved Mahonia) a beautiful evergreen shrub with smooth shining leaves—dwarf in habit.

15 to 18 inches, B. & B.	1.25
18 to 24 inches, B. & B.	1.75
2 to 2½ feet, B. & B.	2.50

**COMMERCIAL PEAT**—Used as a top covering around evergreens, perennial or rock plants, house plants, or applied to heavy soil, which will give life and vigor to plants or crops of any kind. In bulk. Bring sacks.

## HARDY PERENNIALS AND ROCK PLANTS

The well arranged Perennial Garden, of whatever size it may be, will bring joy and gladness, all through the spring and summer as you admire the many changes, in shapes, in hues and colors and the gorgeous creations of nature. They are with you each year. However as we expect best results from our vegetable garden when it has been well cared for, so in the flower garden.

You are invited to visit the Nursery, any time during the flower season, and see them in bloom. A good way to select your flowers.
